### KIT, VERTICAL WIRE DRIP CUP

Technical Bulletin Reference No. 0104-001

---

Schroeder America is offering a new drip cup holster kit for use where there is limited space. The kit (675-0040) includes the rubber insert (315-0008), wire hanger (661-0006), and 3 mounting screws.

The new holster can be mounted against any flat surface, including the bar or counter edge, with the three screws provided. Then insert a 1/4" drain line into the drain tube opening on the bottom of the rubber cup.

## INSERT, HOLSTER, BARGUN

Technical Bulletin Reference No. 0104-002

---

Schroeder America is now offering a new rubber drip cup (315-0008). The drip cup is used in our wire drip cup holster kit (675-0040) or can be purchased separately to fit into any existing drip cup holster brackets. The cup has an opening for standard 1/4" drain line.

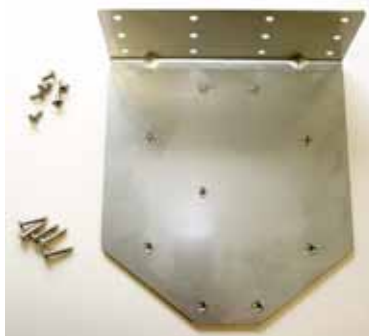

## KIT, VERTICAL MOUNTING BRACKET, STAINLESS, BG

Technical Bulletin Reference No. 0104-003

---

Schroeder America is offering a stainless steel vertical mounting bracket (670-0004) to aid in the installation of the bar gun where horizontal space is limited.

The kit contains a bracket, 5 bracket install screws, and 6 mounting plate screws.

1. Secure bar gun mounting plate to the bracket using 6 — 8/32 machine screws provided.
2. Secure bracket under the counter with the 5 wood screws provided
3. Slide bar gun onto bracket in vertical position
